**Thematic Goal**

Throughout the rest of this application, we will often ask you to identify which of the three components of sustainability are applicable, because this connection is critical to approval of your application. Please feel free to use the following acronyms if you wish:

E --> Environmental component
S --> Societal component
Ec --> Economics component.

The goal of the certificate is to enhance your ability to explore the complex problems being faced by our world, and to work to solve these problems through the lens and goal of creating a sustainable future. In this question, please provide 4 types of information:

1. Name a thematic emphasis you want to explore, and include three components in this statement.
2. Provide a definition of the theme.
3. Explain how this theme integrates with each of the three components of sustainability — environment (E), economy (Ec), and society (S).
4. Provide a statement as to why this theme has significance in addressing sustainability issues.

Why have you chosen to pursue this certificate? What do you hope to learn from the experience in the program? How do you anticipate it will complement your time at Duke and help shape your long-term career/additional education plans?

Please indicate if you have a faculty advisor in mind that connects to your theme (name, department).

Course Identification

Gateway and Capstone Class Plans

Please indicate the semester in which you plan to complete, or have completed, the Gateway course (ENV 245). Note that this is offered each Fall semester.

Fall 2015
Please indicate the semester in which you plan to complete the Capstone course. This will be offered each Spring semester starting Spring 2018.

Spring 2018
Spring 2019
Spring 2020
Spring 2021

Proposed Elective Courses (2 required)

Please identify Elective 1 of the two elective courses you propose as part of your certificate. Students must choose two electives that together engage across all three pillars of sustainability – Environment (E), Society (S), and Economics (Ec). At least one elective must originate outside the ENVIRON department.

Individual courses must deeply engage with at least two of the three key dimensions of sustainability, connect to your thematic emphasis, connect to your experiential learning endeavors, and be a full-credit course. Courses with the SUSTAIN code meet these criteria, but many other courses may as well. This list of pre-approved electives is not exhaustive and in order to ensure that a course not on the list below meets the certificate requirement, students must clear their selection with the Sustainability Engagement Certificate staff.

In which semester do you anticipate taking Elective 1?

[Dropdown selection]
If you answered "Other" above, please list the Course Code/No. and Course Name you intend to take as an elective (pending approval).

Example:
ENV590.10
Global Food Systems

Course Code and No. _______________________
Course Name _____________________________
ACES course description __________________
Semester you plan to complete ____________

Elective 1

How does Elective 1 relate to or enhance your identified theme? Please specify how this course will connect to at least two of the three components of sustainability: environment (E), economics (Ec), and society (S). Keep in mind you must choose two electives that together engage across all three components of sustainability.

______________________________

Please identify and select Elective 2 of the two elective courses you propose as part of the certificate. Students must choose two electives that together engage across all three pillars of sustainability – Environment (E), Society (S), and Economics (Ec). At least one elective must originate outside the ENVIRON department.

Individual courses must deeply engage with at least two of the three key dimensions of sustainability, connect to your thematic emphasis, connect to your experiential learning endeavors, and be a full-credit course. Courses with the SUSTAIN code meet these criteria, but many other courses may as well. This list of pre-approved electives is not exhaustive and in order to ensure that a course not on the list below meets the certificate requirement, students must clear their selection with the Sustainability Engagement Certificate staff.

______________________________
In which semester do you anticipate taking Elective 2?

If you chose "Other" for Elective 2, please list the Course Code/No. and Course Name you intend to take as an elective (pending approval).

Example:
ENV590.10
Global Food Systems

Course Code and No.  
Course Name  
ACES course description  
Semester you plan to complete  
Elective 2

How does Elective 2 relate to or enhance your identified theme? Please specify how this course will connect to at least two of the three components of sustainability: environment (E), economics (Ec), and society (S). Keep in mind you must choose two electives that together engage across all three components of sustainability.

Experiences Identification

Plans for Experiences (2 required)

To help us better understand your objective for the certificate program, please provide a brief description of the experiences you plan to undertake. Your thematic emphasis must thread through your experiences, and each experience must integrate at least two of the three primary dimensions of sustainability. We understand that you may not know exactly what you will do or that these experiences may change, but please provide as much detail as possible at this point in time.
Note that all experiences will need to be formally proposed and reviewed to determine if they meet the program's criteria before they are approved to count towards the certificate requirements. The approval process will be explained in detail to the student following admission to the program.

</thead>
<tbody>
<tr>
<td>150 Hour Experience</td>
<td>Beginning</td>
</tr>
<tr>
<td>300 Hour Experience</td>
<td></td>
</tr>
</tbody>
</table>

How does your 300-hour experience relate to or enhance your identified theme? Please specify how this experience will connect to at least two of the three components of sustainability: environment (E), economics (Ec), and society (S). Keep in mind you must choose two experiences that together engage across all three components of sustainability.

How does your 150-hour experience relate to or enhance your identified theme? Please specify how this experience will connect to at least two of the three components of sustainability: environment (E), economics (Ec), and society (S). Keep in mind you must choose two experiences that together engage across all three components of sustainability.
